

Step 1 Find and press the "Source" button on the remote.

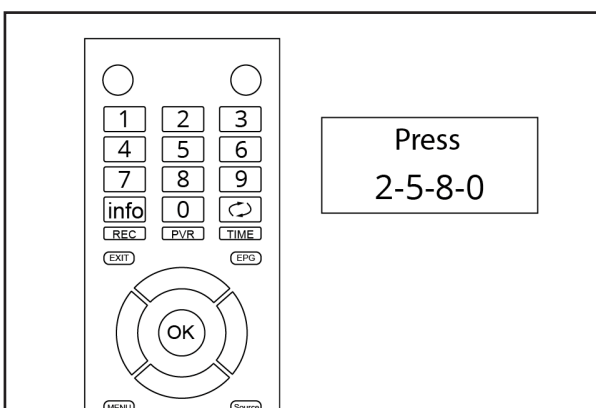

Step 2 An input source menu would pop up at the top right portion of your screen. Highlight the HDMI1 option.

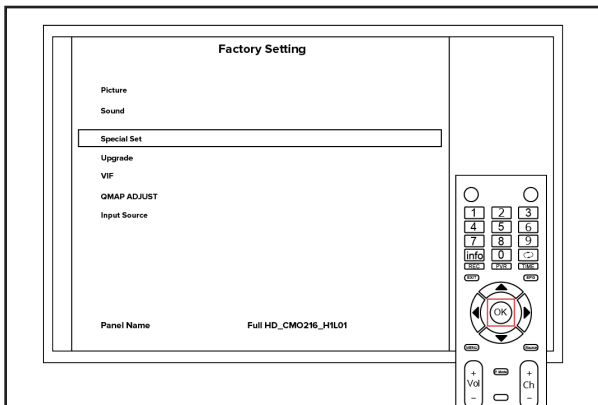

i If the HDMI1 button is accidentally pressed, press the "Exit" button and go back to step2.

! Do not press the HDMI1 option.

Step 3 Slowly press the numbers 2-5-8-0 on the remote to go to bring the "Factory Setting" up.

Step 4 Under "Factory Setting", highlight "Special Set" and press "OK".

Step 5 Under "Special Set", highlight "Power Mode". Then press the right arrow button on the remote and change the mode to "OFF".
