

Power Box Replacement of Grand Mirrors: User's Guide V.3.10

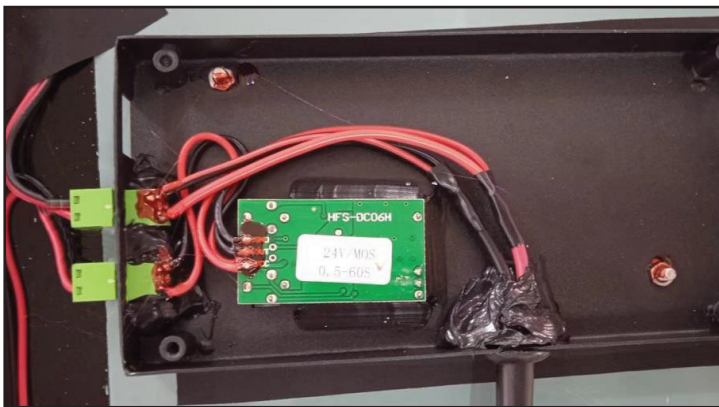

Step 1 Unscrew the four (4) screws on the back of the box.

⚠ HAZARDOUS VOLTAGE. Contact will cause electric shock or burn.
Turn off and lock out system power before servicing.

i Store screws properly after removal to prevent misplacement. Misplacing the screws may cause difficulty in reassembling the TV.

Step 2 To open the lid, take out the two screws and two plugs.

⚠ Take caution when removing the screws to avoid damaging internal wiring or components.

Step 3 Install the new power box by connecting it.

i Once you have completed all the necessary steps, proceed to reassemble your power box.
