

User's Guide on Setting Up Time and Date on Android TV

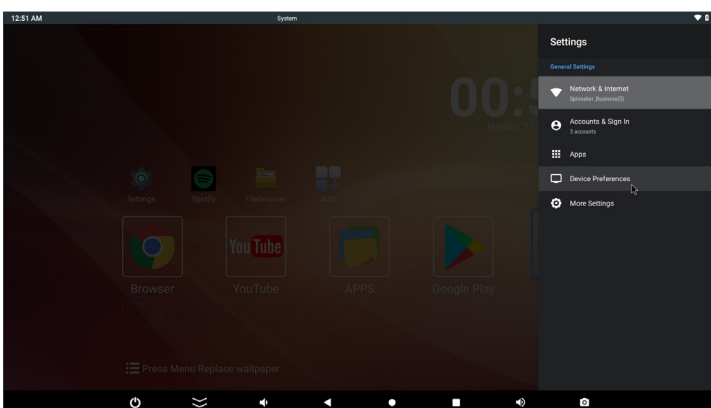

Step 1 Power on your Android TV and navigate to the home screen.

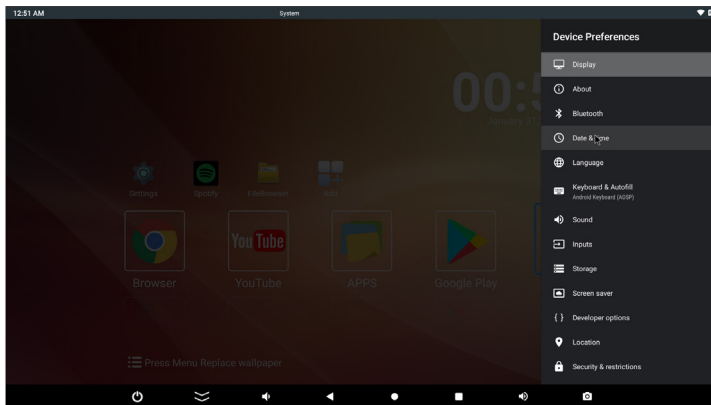

Step 2 Using the remote control, navigate to the "Settings" option and select it.

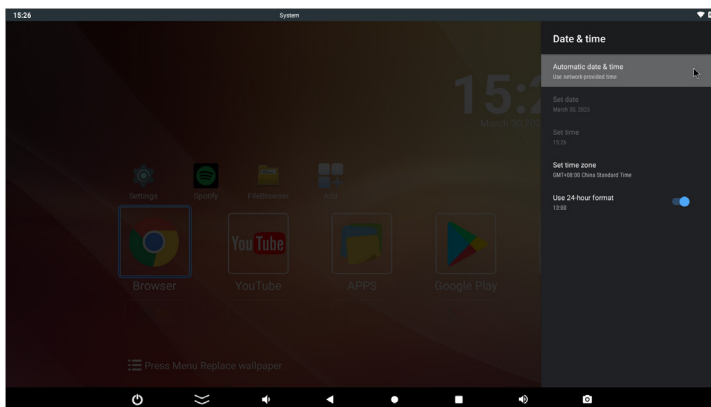

Step 3 Go to the "Settings" menu and scroll down until you see "Device Preferences" select this option.

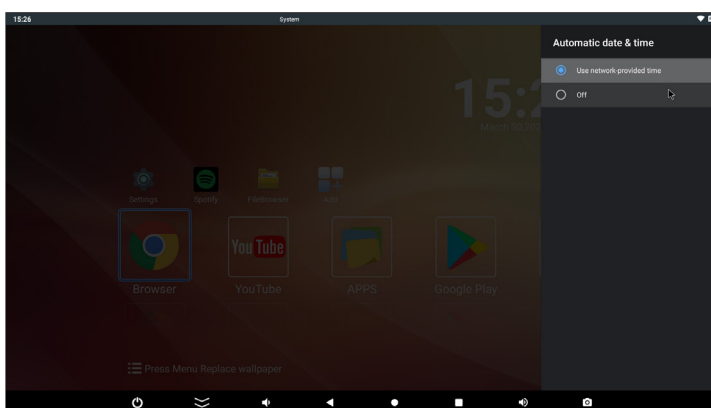

Step 4 In the "Device Preferences" menu, select "Date & time."

Step 5 Toggle the switch located adjacent to the "Automatic date & time" option. This will synchronize the date and time with internet connection automatically.

Step 6 Apply and save changes, click on the "OK" or "Enter" button.

i To manually set the date and time, disable the "Automatic date and time" switch. Additionally, to enable the 24-hour clock format, simply toggle the corresponding switch.
