Compare Ocea

COMPARISON

Bathroom TV OCEA Pro Smart Touch

Other Bathroom TV

Yes, it is water resistant. When recessed mounted, Ocea has an (up to, depending in installation method) IPX7 water-resistant rating.

Water resistance is sometimes present, but with integrated speakers in the TV, it is usually IPX5 or less.

Yes, strengthened mirror glass. Our glass is extremely strong, scratch-proof, and easy to clean.

Frequently with an acrylic or plastic front that scratches easily.

Our patented magnet wall box system reduces the bezel, which improves the overall appearance of the TV.

Bezels that are large enough to cover the wall box construction.

The patented heat sink removes heat from the TV. This significantly reduces the temperature inside the TV and extends its life.

No.

Ocea Pro has a separate speaker housing, which protects the electronic components from audio vibrations.

The speakers are integrated recess in the closed TV compartment and are not separated, exposing the electronic parts to vibrations.

The internal fan of the Ocea Pro circulates the air inside, resulting in quick and even defogging.

There is no internal fan.
There is also no option to defog the screen.
TVs are sometimes powered by 110 or 220 volts, which can be hazardous in the bathroom.

Ocea pro is powered by a 12 or 24 volt battery. As a result, it is the only bathroom on the market that is suitable for use in the bathroom.

Sometimes TV is powered by 110 or 220 volt, which can be dangerous in the bathroom.

Ocea Pro comes in both recessed and surface mount options. OCEA Pro MUST be recessed mounted for sauna use.

No, usually only recessed or surface mount.

Yes, the Ocea Pro includes a full touchscreen as standard. You can control your television up to 50 times faster.

No.
